

Effective Interpersonal Skills

To achieve desired results in a diverse workplace, all employees need to develop better interpersonal skills with the various people they interact with. In this programme, participants will learn about their behaviour and its effect on others. They will also learn about how others perceive them, their strength and weakness and be able to develop a flexible style in relating with co-workers and other people.

Learning Objectives

Participants will:

- Gain a greater understanding of their behaviour and influence on others
- Create a healthy collaboration and productive work environment
- Understand personality types and why people behave the way they do
- Manage anger, stress and other unproductive emotions
- Develop positive attitudes towards others
- Be able to build trust and rapport with others
