

# PERFORMANCE WORKSHOP

# MANAGEMENT

This course covers the techniques and processes for managing employee and team performance. Setting targets and measuring achievement is key to the attainment of performance objectives. This course is targeted at supervisory and managerial staff who have the responsibility of assessing their subordinates' performance and conducting performance appraisals. It will be looking at their appraising responsibilities in a way that properly rewards and motivates their subordinates towards enhanced productivity. It will also provide participants with the skills for a more objective performance appraisal.

## Learning Objectives

Participants will:

- Understand the goals of Performance Management using the Dialogue process
- Learn what the line manager's role and responsibilities are in performance management
- Practice formulating and discussing specific / SMART objectives
- Apply a structured approach to conducting performance appraisal
- Understand how to correct performance issues before they become problems
- Apply monitoring and follow-up techniques to ensure commitments, goals and standards are being met.
